TECE 
close to you

TECE develops products with customers in mind. We offer creative and modern bathroom solutions that focus on convenience for the end user.

Sanitary Systems

A few select TECE in-wall cistern models are used for every application scenario, whether you require operation from the top or front, a single or dual flush system, or different installation heights in brick-wall or dry-wall construction. The inner workings are largely identical and the spare parts are therefore always compatible.

Our cisterns are particularly quiet, and suit a wide range of flush plates for a seamless, integrated design in your bathroom or powder room.

Top: TECEsquare Metal in Stainless Steel.
Above: TECElux wall hung toilet system in White.

The TECE lux is the standout toilet of today in our sanitary system range. It can rinse and blow dry, purify the air and flush automatically. But the aesthetics are often sacrificed for this additional hygiene and comfort. TECE has now created a form that unites all functions. The technology disappears into the wall and all that remains visible is a flat facing made of white safety glass.

Flush Plates

All TECE flush plates universally fit all TECE in-wall cisterns. Thanks to the special design of the cistern, toilet push plates from TECE are relatively small and integrate unobtrusively in the bathroom architecture.

TECE puts great value on a good form, even in the entry ranges - TECEambia, TECEbase and TECEplanus. The stainless steel plates from TECEsquare and the glass fronts of the TECEloop series offer elegance for premium bathroom designs.

Right: TECEloop ABS in White - White.

TECEdrainline

Our drainage systems can be perfectly integrated into modern designed bathrooms. TECEdrainline shower channels free the bathroom from disturbing separations such as the shower trays and cubicles and allow a uniform floor design.

Thanks to the "plate" tileable channel, the shower channel can be perfectly fitted into the flooring. The solid construction of the TECEdrainline shower channel enables especially small drainage slots. The tileable channel is also available for the angled channel in various sizes.

TECEdrainline produces accessible bathrooms with a focus on real space for living.

- Easy to clean
- Center outlet
- Tapered base

Right: TECEdrainline Stainless steel with tile insert. TECElux wall hung toilet system in Black glass panels with White pan.

TECElux Toilet Terminal

Press and flush was yesterday. The toilet of today can do so much more: rinse and blow dry, purify the air and flush automatically.

TECElux is the terminal for all toilet functions of today - and tomorrow. Integrates new functions in the wall and can be incorporated into any bathroom ambience

- Electronic flush with approach sensor
- The panel with a large surface protects the wall from splashes and thus enables wall design without tiles
- Air filter system with ceramic odour filter
- Additional pan height adjustment

A TECElux toilet terminal always consists of:

- a TECElux toilet module - 9.600.403
- an upper glass facing with actuation unit in white or black
- a lower glass facing with toilet attachment and notches for different power and water connections in white or black

Right: TECElux wall hung toilet system in Black glass panels.

TECElux mini

Design meets technology with electronic functions

The sensor detects when a person is approaching the toilet, and only illuminates the flush buttons then. The flush actuation is touch-free or by simply touching the button area.

A programmable remote control allows you to individually adjust the recognition range, activation time or display brightness. This can also be used to set the intervals of individual functions such as the hygiene or safety flush.

- Electronic actuation, touch-free or by touching the button area
- Particularly hygienic due to the touchless flush
- High-quality, reduced design through smooth glass surfaces with flat structure
- Simple cleaning thanks to seamless, tough glass surfaces.
- Individual programming with remote control (optional)
- "Night light function" via approach sensor
- Illuminated button silhouette
- Suitable only for the following cisterns- 9.300.055, 9.041.021.

Right: TECElux mini in Black.

TECE universal cistern 16cm

Save water or flush well?

With a simple slider, the fitter can choose between 4.5, 6, 7.5 and 9 litres for the full flush, while the reduced flush remains a constant 3 litres. This flexibility, in particular, means sustainability for TECE: The cistern's flush volume and flush flow rate can be adapted to any requirement.

With a TECE cistern, both are possible. The flush pressure can be flexibly adapted to any toilet regardless of the ceramics used. With conventional drain valves, the flush pressure can only be subsequently curtailed, but not increased. By exchanging the throttle ring installed as standard, the flush pressure can be subsequently increased. If there is overspray, it can of course also be reduced.

Below: TECE8cm cistern and TECESquare Metal in Chrome.

TECE 8cm cistern

The TECE8cm cisterns hold 9.5 litres of water and similar to the TECE cistern 16cm, the Design Plus award winning Outlet valve can be easily removed and the full flush adjusted to flush either 4.5, 6 or 9 litres.

When the valve is exchanged, no individual parts need to be taken apart or unscrewed, because the 8cm valve also forms a unit in which all parts are permanently attached to each other. The valve can then be easily removed from the cistern by bending and turning.

Installation

- 8cm cistern depth suitable for installation in 90mm stud walls, cavity wall or in front of a wall
- Suitable for all manual flush buttons (TECElux mini not possible)
- Wall covering minimum 18mm for standard flush button installation
- 25mm wall thickness required for recessed button installation
- 30mm wall thickness require when using TECESquare Metal 2

Fratelli Frattini was started in 1958 in San Maurizio d'Opaglio by brothers- Pier Luigi, Benito and Giuseppino Frattini along with the support of their father Maurizio. More than 50 years of passion and expertise has created a brand strongly focused on technical and design innovation to produce exceptional quality sanitary mixers, designed and made in Italy.

Frattini design with the customer in mind, producing creative new shapes in a wide range of materials and finishes while guaranteeing a reliable and long-lasting product.

GRAFF[®]
CUTTING EDGE DESIGN

The GRAFF headquarters are located in Milwaukee, Wisconsin, USA, with locations throughout Europe. GRAFF is globally recognized for its trend-setting products and unique vision. Supported since 1922 by extensive plumbing and hardware manufacturing experience, GRAFF has positioned itself at the forefront of design, creating designer-based collections for the luxury market.

Utilizing the latest manufacturing technology and thanks to a tradition of old-world craftsmanship, GRAFF's commitment to creating cutting-edge, premium-quality collections is evident in each and every product.

Internationally recognized as an avant-garde manufacturer of exciting, trend-setting bathroom and kitchen fixtures, GRAFF has built its reputation as an interpreter and protagonist of modern lifestyle, bringing creativity and inspiration into many homes, and as a company, being keenly aware of human and environmental issues and values.

GRAFF's designer faucets and shower fixtures bring a new way of enjoying water and life, and pay homage to the most precious natural resource of our planet. They celebrate the same great creative force that raised

skyscrapers as well as rainforests and take you to the ideal point where nature, man and technology meet, on the common ground of pleasure and beauty.

They make your bathroom a unique space to be in, like a new dimension that needs to be experienced before being explained. A dimension of wellness and excellence.

Below: Sento basin mixer in Chrome.

NDW is a Swiss company and has its headquarters in the heart of Grisons, Switzerland. The site was carefully chosen because it has great influence on our activities. So, Switzerland because of its tradition of technological excellence in the art of mechanical precision, and because of its culture of respect for the environment, to which NDW has totally adhered by obtaining zero pollution from its production.

Technology has its advantages

Each stage of the production process is automatized and implemented with state of the art machines including robotized pick-up members and automatic press loading. This means increasing performance and consequently production, reducing the client's costs and waiting time and, above all, having a top quality finished product. Thanks to automation,, the risk of scratches or dents that are usual with human manipulation, are an exception.

Above: Aria single function hand piece.

Continual research

What makes NDW a competitive and avant-garde company is its continual investment in research and experimentation. What makes NDW a unique company is people: the designers, the technicians, the planners and all the collaborators who believe that an accessory has the power of reinventing a bathroom or a kitchen.

The Range

Gro Agencies offer a selection of shower options:

- standard and adjustable rails,
- hand shower sets,
- combination sets riser,
- riser with short rail and
- riser with rail.
- also, a rail with top water inlet

All the combination sets are available with any NDW hand piece and a selection over rain showers either ABS or Swiss made Stainless Steel.

Warranty Conditions

The warranty of the products listed below are valid to the person who acquires the product from an authorised Gro Agencies reseller/retailer for their own use and not for resale or resupply. The warranty is only offered to goods purchased in Australia from an authorised Gro Agencies reseller.

Where the product is covered by a parts and labour warranty, the warranty covers the cost to replace the defective part and the labour required to install the defective part by a Gro Agencies authorised service plumber.

Where the product is covered by a replacement part warranty, Gro Agencies will supply the replacement part only and it is the responsibility of the consumer to install the replacement part.

Product	Warranty Period	Comments
TECE	2/2/10	2 year parts and labour for the internal inlet and outlet mechanisms 2 years on TECE flush plates and TECE drainlines 10 years on the cistern construction
Inda	2	2 year bathroom accessories replacement parts only 2 year bathroom furniture including washbasins parts and labour
F.lli Frattini	2/5/15	2 years on Special finishes other than Chrome 5 years replacement parts and labour 15 year replacement cartridge
Gro Ceramics	2	2 years parts and labour
NDW	15	15 year replacement parts only Chrome products
Victoria & Albert	1/25	1 year waste fittings 25 years on baths and basins, excluding painted finishes
Graff		5 years on leak tightness of the units casing and the durability of the polished chrome finish 2 years parts and labour on the remaining components and other finishes.
Gro Products	1/3/15	1 year parts and labour 3 years on special finishes, Matte Black, Inox etc 15 year replacement for NDW products supplied in Osborne rail sets.

Warranty Claims

To make a warranty claim, please contact your place of purchase or contact Gro Agencies for the Warranty/Service application form. The warranty/service form must be completed and returned to Gro Agencies by email, once received by Gro Agencies your request will be assessed and you will be contact by Gro Agencies or an authorised representative of Gro Agencies.

To make a warranty claim you must be the original purchaser of the product and be able to provide relevant proof of purchase such as an invoice from an authorised Gro Agencies reseller/retailer. Should the claim be for a product supplied by a builder for a commercial/residential project then handover documentation will be required as proof of purchase.

If the product has not been installed, it should be returned to the place of purchase if considered practical.

Mail PO box 155 Greenwood WA 6024

Warranty Commencement Date

The warranty commences from the invoice date as purchased from a Gro Agencies authorised reseller/retailer.

Consequential Loss

To the extent permitted by law, Gro Agencies will not be liable for any loss or damage to furniture, floor coverings, walls, fixtures or any other consequential loss of any kind by any defect in the product.

Warranty Service Network

Gro Agencies has a selected number of authorised service agents throughout the most metropolitan areas. Where a warranty claim is made for regional area greater than 50km from the centre of the metropolitan area, the customer is responsible for the cost of the authorised service agent to resolve the warranty issue unless agreed in writing with Gro Agencies. Gro Agencies will supply parts for the warranty according the warranty terms.

Warranty Exclusions

1. The customer's inability to provide proof of purchase or similar documentation
2. The products have not been installed by a licensed plumber and/or electrician in accordance with the manufacturers recommendations
3. The products have not been installed according to National Standards or local government regulations
4. The products have not been installed according to manufacturer's installation instructions/recommendations
5. Water pressure exceeds 500kpa and/or water temperature that exceeds manufacturers recommendations. Please note AS/NZS3500.1-2003 (clause 3.3.4) specifies 500kPa maximum water supply pressure at any outlet within the building for new installations.
6. Fitting of third party devices to outlets such as water filters to the tapware outlets
7. Fair wear and tear of working parts/consumables including washers, seals, aerators, inlet and outlet washers for toilet cisterns.
8. Products use for incorrect application's
9. Water leaks or damage caused by inadequate cleaning or flushing of the system during the installation process. This also includes damaged caused by poor/contaminated water supply which may result in soil, silt and debris found inside the working parts which in turn cause the water leak or damage to the product.
10. Failure to adequately maintain the product by regular cleaning the aerator and/or water outlet points such as shower heads and aerators.
11. Damage to the finish/surface of the product caused by incorrect cleaning products such as abrasive cleaners
12. Damage to the product during installation
13. Damage to the product due to misuse as determined by a Gro Agencies representative
14. Failure to observe the care and cleaning recommendations as supplied by the manufacturer

Toilet seats

A toilet seat that comes loose with continued use is not covered by the Kerasan warranty. All toilet seats under normal usage have a tendency to come loose after a period of time and require tightening. A loose toilet seat may also cause the soft close mechanism if fitted to fail. The toilet seat can be tightened by removing the seat and fixing cover and tightening the screw.

Ceramics

Ceramics by their very nature are not manufactured to exact specifications, manufacturers allow some tolerances in measurements and also the finish of the surface. Large pieces of ceramic are also subject to bowing, again bowing is part of the manufactures tolerance should you believe the bowing is excessive and greater than 10mm over a 1000mm length then please contact Gro Agencies.

Inwall cisterns

All TECE inwall cisterns and flush buttons are supplied with installation instructions and are provided to ensure best possible installations, should the installation instructions not be followed, Gro Agencies reserves the right to charge a service fee to resolve installation issues.

NDW Showers

NDW showers have a 15 year replacement warranty as per the table above, the replacement part is supplied at no cost but is the responsibility of the home owner to install.

Tapware

All tapware must be installed according to manufacturer's installation recommendations and AS/NZS 3500, failure to comply will void all warranty. Please note maximum water pressure from either the hot or cold supply must not exceed 500kpa, if the pressure exceeds 500kpa a water pressure reducer must be installed.

Victoria & Albert

Your Statutory Rights

Our goods come with guarantees that cannot be excluded under the Australian Consumer Law. You are entitled to a replacement or refund for a major failure and compensation for any other reasonably foreseeable loss or damage. You are also entitled to have the goods repaired or replaced if the goods fail to be of acceptable quality and the failure does not amount to a major failure.
